Notes to the condensed interim consolidated financial statements

Unaudited

(Expressed in Canadian Dollars)

Three Months Ended June 30, 2020

1. Nature and continuance of operations

MustGrow Biologics Corp. (formerly Duport Capital Ltd.) (the “Company”) was incorporated on December 2, 2014 as 1020673 BC Ltd. under the laws of the province of British Columbia, Canada.

On March 29, 2018, the Company changed its name to MustGrow Biologics Corp.

On January 1, 2020, the Company amalgamated with its wholly-owned subsidiary MPT Mustard Products & Technologies Inc.

On May 7, 2020, the Company formed a wholly owned subsidiary, MustGrow Biologics Columbia S.A.S.

The Company was previously a business development services company. The company is now an agriculture biotechnology development company developing new, novel, natural biopesticide and bioherbicide products from mustard seed as well as distributing other biopesticide products.

The head office, principal address, records office and registered address of the Company are located at 1005 – 201 1st Ave. S., Saskatoon, Saskatchewan, S7K 1J5, Canada.

These financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future. As at and for the six months ended June 30, 2020, the Company has an accumulated deficit of \$12,471,473, negative operating cash flows of \$1,516,767 and a total net loss and comprehensive loss of \$1,807,038.

The Company’s ability to continue as a going concern depends on its ability to continue raising capital through share offerings to support the development of its products and to fund its operations. Although the Company has been successful in the past in raising capital through share placements, there is no assurance that this will continue to be successful.

The conditions described above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. If the Company is unable to obtain additional financing, the Company will have insufficient funds to continue operations.

These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that would be necessary should the company be unable to continue as a going concern. Such adjustments could be material.

2. Basis of preparation

The financial statements of the Company are prepared on a consolidated basis and include the operations and financial position of the Company, its wholly owned subsidiary MustGrow Biologics Colombia S.A.S and its formerly wholly owned subsidiary MPT.

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board, using accounting policies consistent with those used in the Company's annual financial statements for the year ended and as of December 31, 2019. They do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements.

Under the terms of the Ag-West Bio Inc. loan, the Company will pay Ag-West a royalty of 5.00% of all gross revenues received by the Company or an affiliate commencing on the date the Company or its affiliates have attained \$500,000 in cumulative revenues beginning May 5, 2017. Gross revenue received is defined to include all sources of revenue, including product sales, licensing revenue, sub-licensing revenue, and royalty revenue received, as well as proceeds derived from the sale of the assets or sales of the Company or an affiliate as part of a divestiture of the business or that would result in a change of control. The maximum amount Ag-West may receive under this agreement is \$750,000, with the first \$382,271 payments to be applied to pay down the principal outstanding. Ag-West has retained its general security interest in all of the Company's assets.

Under the terms of the Saskatchewan Minister of Agriculture loan, the principal amount of \$377,063 is due on the earlier of March 1, 2022 and the day on which the Company earns cumulative revenue in excess of \$250,000 from the commercial sale of the products or technology with no interest accruing until this point in time. At such time, interest will be accrued at the prime rate plus 2% and increased to 10% per annum for any principal and interest in arrears.

The terms of the Saskatchewan Minister of Agriculture loan were amended as of March 1, 2020. Previously the due date was February 1, 2020 and this was amended to March 1, 2022. Previously, interest accretion on this loan was recorded at an effective rate of 14%. Under the new terms, from February 1, 2020 onward,

interest accretion is recorded at an effective rate of 17%. The amendment resulted in extinguishment of a portion of the debt and a gain of \$105,194.

For the three and six months ended June 30, 2020, non-cash interest expense of \$11,554 and \$22,764, respectively, was recorded (2019: \$11,469 and \$22,938).

As at June 30, 2020 and December 31, 2019 there was a note payable of \$205,734. The amount is unsecured, non-interest bearing and payable seven days following the substantial sale of all of the assets of the Company. Notwithstanding, the Company intends to repay the amount when cash flow permits and therefore classifies the amount as a current liability. There are no restrictions on prepayment nor any prepayment penalty.

The Company completed a private placement of common shares and issued 1,662,533 shares on March 12, 2019 and 50,000 shares on March 13, 2019, in the aggregate amount of 1,712,533 shares, at \$0.70 per common share for gross proceeds of \$1,198,773. Net proceeds after share issuance costs were \$1,151,532.

On December 10, 2019, the Company completed a private placement of 11,139,879 units (the "2019 Unit Offering") consisting of one common share and one-half warrant to purchase one common share at \$0.50 per share (the "2019 Unit"). Issue price was \$0.35 per 2019 Unit. The issue price allocated to the share portion of the 2019 Unit was \$0.30 and \$0.05 was allocated to the warrant. Proceeds, net of cash issuance costs of \$209,400, were \$3,689,557 of which \$36,000 was receivable at December 31, 2019. Additional non-cash issuance costs of \$53,499 were calculated to reflect the issuance of 534,986 warrants to the

brokers that placed the 2019 Unit Offering. These warrants have an exercise price of \$0.50 per share and a two-year term.

Stock options

The Company has established a stock option plan (the "Option Plan") for directors, officers and consultants of the Company. The Company's Board of Directors determines, among other things, the eligibility of individuals to participate in the Option Plan and the term, vesting period, and the exercise price of options granted to individuals under the Option Plan.

Each stock option converts into one common share of the Company on exercise. No amounts are paid or payable by the individual on receipt of the option. Options may be exercised at any time from the date of vesting to the date of their expiry.

The Company's Option Plan provides that the number of common shares reserved for issuance may not exceed 10% of the aggregate number of common shares that are outstanding.

The following table presents the details of issuances of options. Such options have a contractual life of five years and were vested 25% immediately and 25% on each of the next three anniversaries of issuance. The fair value of these options at the date of issuance was estimated using the Black-Scholes option pricing model using the following assumptions.

<u>Issuance Date</u>	<u>Number of Options</u>	<u>Estimated Life</u>	<u>Risk-free Rate</u>	<u>Volatility</u>

Three Months Ended June 30, 2020

On December 10, 2019, the Company issued 5,569,935 Share Warrants pursuant to the 2019 Unit Offering and recorded a gross amount of \$556,994 in contributed surplus based on the fair value of the warrants, reduced by the allocated cost of issuance. Each warrant entitles the holder to purchase one common share at \$0.50 per share until December 10, 2021.

Pursuant to the 2019 Unit Offering, on December 10, 2019, the Company issued 534,986 Share Warrants to intermediaries as compensation for the 2019 Unit placement, and are accounted for as equity-settled share-based payments to non-employees under IFRS 2, and recorded \$53,499 in contributed surplus with the corresponding amount treated as a cost of issuance for share capital and warrants. The fair value of these warrants at the date of issuance was estimated using the Black-Scholes option pricing model at \$0.10 per warrant, based on the following assumptions: expected annualized volatility of 89%; risk-free interest rate of 1.67%; expected dividend yield of 0%; expected life of two years.

The following table summarizes warrants issued to consultants of the Company as compensation for services. The fair value of these warrants was estimated using the Black-Scholes option pricing model.

6. Related parties

During the three and six months ended June 30, 2020, the Company incurred consulting fees and office rent of \$120,376 and \$272,450 (2019 – \$98,441 and \$197,592) to companies controlled by directors and officers of the Company.

MUSTGROW BIOLOGICS CORP.

Notes to the condensed interim consolidated financial statements

Unaudited

(Expressed in Canadian Dollars)

Three Months Ended June 30, 2020

During the three and six months ended June 30, 2020, stock-based compensation related to stock options issued to directors and officers of the Company totaled \$47,816 and \$63,860, respectively (2019 – \$24,639 and 49,277).

As at June 30, 2020 there was \$13,648 accrued and payable to companies controlled by directors and officers of the Company (2019 – \$14,233).

7. Income taxes

For income tax purposes, the Company has non-capital losses which can be applied to reduce future years' taxable income. These losses expire as follows:

2028	\$	284,090
2029		309,228
2030		967,482
2031		1,305,153
2032		1,283,488
2033		805,310
2034		687,056
2035		321,095

2037		88,532
2038		861,965
2039		<u>1,425,129</u>
	\$	<u>8,628,760</u>

Deferred tax assets have not been recognized in respect of tax losses because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

8. Financial instruments

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's is not currently exposed to interest rate risk as there is no interest paid on debt outstanding.

Foreign currency risk

The Company conducts certain of its operations in United States dollars and is limited to a small number of purchases in U.S. dollars which are recorded at the spot rate at the date of the transaction. As of June 30, 2020, the Company held U.S. dollar cash of \$15,279 (2019 – \$565).

Liquidity risk

Liquidity risk arises from the possibility the Company will not be able to meet its financial obligations as they become due or obtain financing as needed to pursue expansionary projects. Actual and forecasted cash flows are continuously monitored to reduce this liquidity risk. Management judges the future cash flows of the Company are adequate to make payments as they become contractually due and existing

banking arrangements are able to support the growth goals of the company. Refer to note 1 for disclosure regarding the company's ability to continue as a going concern.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's maximum exposure to credit risk is the carrying amount of the accounts receivable, which is minimal.

Financial instrument carrying values and fair values

For all current financial assets and financial liabilities, carrying amounts are assumed to approximate fair value due to the short-term maturities of these items and are in level 3, except for cash which is in level 1.

The long-term debt consists of the Ag-West Bio Inc. and Saskatchewan Minister of Agriculture loans valued using a discounted cash flow test taking into consideration the current market interest rate of interest with similar term to maturity and the company's current credit quality. As at June 30, 2020, the fair value of the long-term debt is \$673,395 (December 31, 2019 - \$755,825) and is classified as level 3 in the fair value hierarchy.

9. Other Uncertainties

The outbreak of the Coronavirus disease ("COVID-19") has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. The duration and impact of the COVID-19 outbreak is not known at this time, nor is the efficacy of the government and central bank monetary and fiscal interventions designed to stabilize economic conditions. As a result, it is not possible to reliably estimate the length and severity of these developments or the impact on the financial position and financial results of the Company in future periods.
